jury in the evening. A verdict is expected this morning.

Although the alleged crime was committed five years ago, no action was taken by the Grand Jury until the last session. An indictment was returned and Cowles was arrested. He denies that he is the man, and says that his name is J. B. Cowles.

Five years ago Edward Cowles deposited \$5 in a bank at Whitehall. Ill., and immediately drew a draft for the sum. A short time later Julius Postel, a miller of Mascoutah, cashed a draft for \$9 for "Edward Cowles" on the Indorsement of Judge Henry Decker.

Cowles had told Decker of some of his friends in Whitehall and won his confidence. The draft was returned marked worthless a few days later. Cowles disappeared in the meantime, and until recently his whereabouts were not known. He was arrested at Assumption, Ill.

BAILEY DEFENDS HIS POSITION. Declares State Appropriation Is

Not Necessary. Topeka, Kas., June 26.-The extra session of the Kansas Legislature this afternoon at

o'clock adjourned. County Commissioners are authorized to

ald flood sufferers from the county fund to any extent that seems best to them. To appropriating money for the relief of the sufferers, but it was defeated. This action of the Legislature has caused a great mount of criticism. Governor Bailey in a statement to-day

Governor Bailey in a statement to-day explained his attitude toward a relief appropriation, in the course of which he said: "I feel that the criticsm of my attitude in this matter is unjust. There is very little if any destitution in the flood district. Whatever destitution there is has been or will be relieved by the local authorities, the local charities and the assistance which comes freely from the outside. The need is great through the Kansas Valley, but the cases of destitution are few." of destitution are few.

# HIGH CLASS DRUGGISTS AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as

Syrup of Figs, and they are glad to sell it because it gives universal satisfaction. Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—" Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand knowing that the great inajority of druggists are remade, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.
